PROJECTS

Team Project
2025

Stellar StoryTellers

Developed an educational web application that simplifies complex space concepts through interactive stories and videos.

Personal Project
2025

Portfolio Website

Designed and developed a responsive portfolio showcasing projects, technical skills, and achievements. Implemented a clean user interface with smooth navigation and deployed the application using Vercel.

Personal Project
2026

Movie Recommendation System

Built a content based recommendation system using TF-IDF and cosine similarity to suggest similar movies. Integrated the OMDb API for movie posters and deployed the application using Streamlit.

CERTIFICATIONS

October - 2025

NASA Space Apps Challenge 2025

Participated in the global NASA Space Apps Challenge and collaborated on developing an educational web application.

Feb 2024 - Apr 2024

Data Science Internship & Training – InternzValley

Completed hands-on training in Python, Data Analysis, Machine Learning, and data visualization through real-world projects.
